About the Grant Writing Facilitator

Betty McDougall has been a resident of Swift Current since 1979, when she and husband Pat bought into a Swift Current paving company. Previously, Betty and her family lived in Qu'Appelle, where she taught in an elementary school. Betty's varied employment record includes work in the education system, in retail sales as a co-owner, and as a government employee. She has worked, for the past seventeen years, in the not-for profit sector.

Betty has a long history of community involvement, believing that if one can, one should 'give back' to the community in which he/she lives. Her volunteer involvement has occurred on the local, provincial and national levels – in the not-for-profit sector, with charitable organizations and a service club, and as a member of a town council.

During these varied volunteer and work experiences, Betty has taken advantage of training opportunities in order to better support the organizations in which she was involved. Of special interest to Betty has been the acquisition of funding to support the very worthwhile projects which occur in all our communities throughout Saskatchewan. Betty's learnings and experience in this area have helped organizations obtain funds through grants from funding agencies. Betty is excited about sharing what she has learned in the area of grant writing so that others can become successful in obtaining funds for the projects on their 'wish lists' in their communities.
