

# Summer 2011 Play Patrol Funding Guidelines

SWDCRS will support play patrol communities with \$560.00 for a 60-Hour program or \$280.00 for a 30-Hour program. Communities will receive half of this funding up front and the remaining funds upon meeting the partnership funding criteria and submission of their final report.

This funding is solely for the purpose of paying your play leader at a rate of \$11.00/hr. Volunteer Community Play Patrol Coordinators will receive an honorarium of \$120.00 (60 hour program) or \$60.00 (30 hour program) in recognition of their commitment and support to the responsibilities of this program, and their youth play leader.

SWDCRS will create employment opportunities for your youth. In partnership with your community and the SWDCRS Play Patrol Funding, a local play leader(s) will have a summer job and develop their leadership skills in your community. Children of your community will benefit with a variety of safe, affordable, summer activities to participate in.

SWDCRS will provide a play patrol mentor for your play leader(s) to assist your leader through the summer of programming and activities in your community. The mentor will attend up to 3 program events to assist, evaluate, and make recommendation to your play leader(s) during their play program, as required. The mentor is available to assist in setting up your summer program with your leader and your communities play patrol coordinator.

SWDCRS will provide up to \$150.00 of active play equipment to Play Patrol communities if deemed necessary. This play equipment will assist your play patrol leader and coordinator in planning a variety of activities throughout the summer, and the equipment will remain in your community.
